CGPA : 8.3

SSC, Sri Sai Vignan High School 2018
CGPA : 9.3

SKILLS

Technical Language	Java
Web Development	HTML, CSS
Database	MySQL
Languages	Telugu, English

PROJECTS

Wedding Planner: The project is a wedding planning application designed to simplify the process and make it accessible at your fingertips. Users can explore and select plans that suit their preferences. The backend of the application is built using Core Java, with SQL used for data storage. The Java application is connected to the database using JDBC (Java Database Connectivity).

Personal Portfolio: This personal portfolio was designed and developed as a platform to showcase my skills, projects, and professional journey. The project was primarily aimed at enhancing my expertise in HTML and CSS, while creating a visually appealing and functional representation of my work.

Guide Quest: The Local Guide Application is a robust and efficient platform developed using Java, SQL, and JDBC to simplify the process of discovering and exploring places based on user preferences. It is designed to provide users with a seamless experience for finding, selecting, and navigating to locations that suit their needs.
